

Report from MARTS Editor 2007-2008 (9M2NCL) for AGM 2009

For my term 2007 – 2008 a total of 6 issues of MARTS Newsletters were published. Their volumes as follows:

Volume 56-2, Published June 2007

Volume 56-3, Published August 2007

Volume 56-4, Published October 2007

Volume 57-1, Published February 2008

Volume 57-2, Published August 2008

Volume 58-1, Published March 2009

The articles published were quite varied ranging from mostly local activities to international activities and news from the IARU.

Contributions were received from members and this is much appreciated. Thanks also go out to those who gave permission to extract articles from their own website for inclusion into the MARTS Newsletter. Members also helped in getting the newsletters prepared and sorted out for mailing. My thanks goes out to all those who have helped and contributed in one way or another.

When possible, received inbound QSL cards for Malaysian Hams was included with the newsletter mailing to members. There are still quite a number of QSL cards that have not been sent due to no contact details available of the ham addressed to.

It has been a challenging term and I wish the new incoming council all the best.
